Experiment – 8

Student Counselling System Using Zoho One (SaaS)

Aim

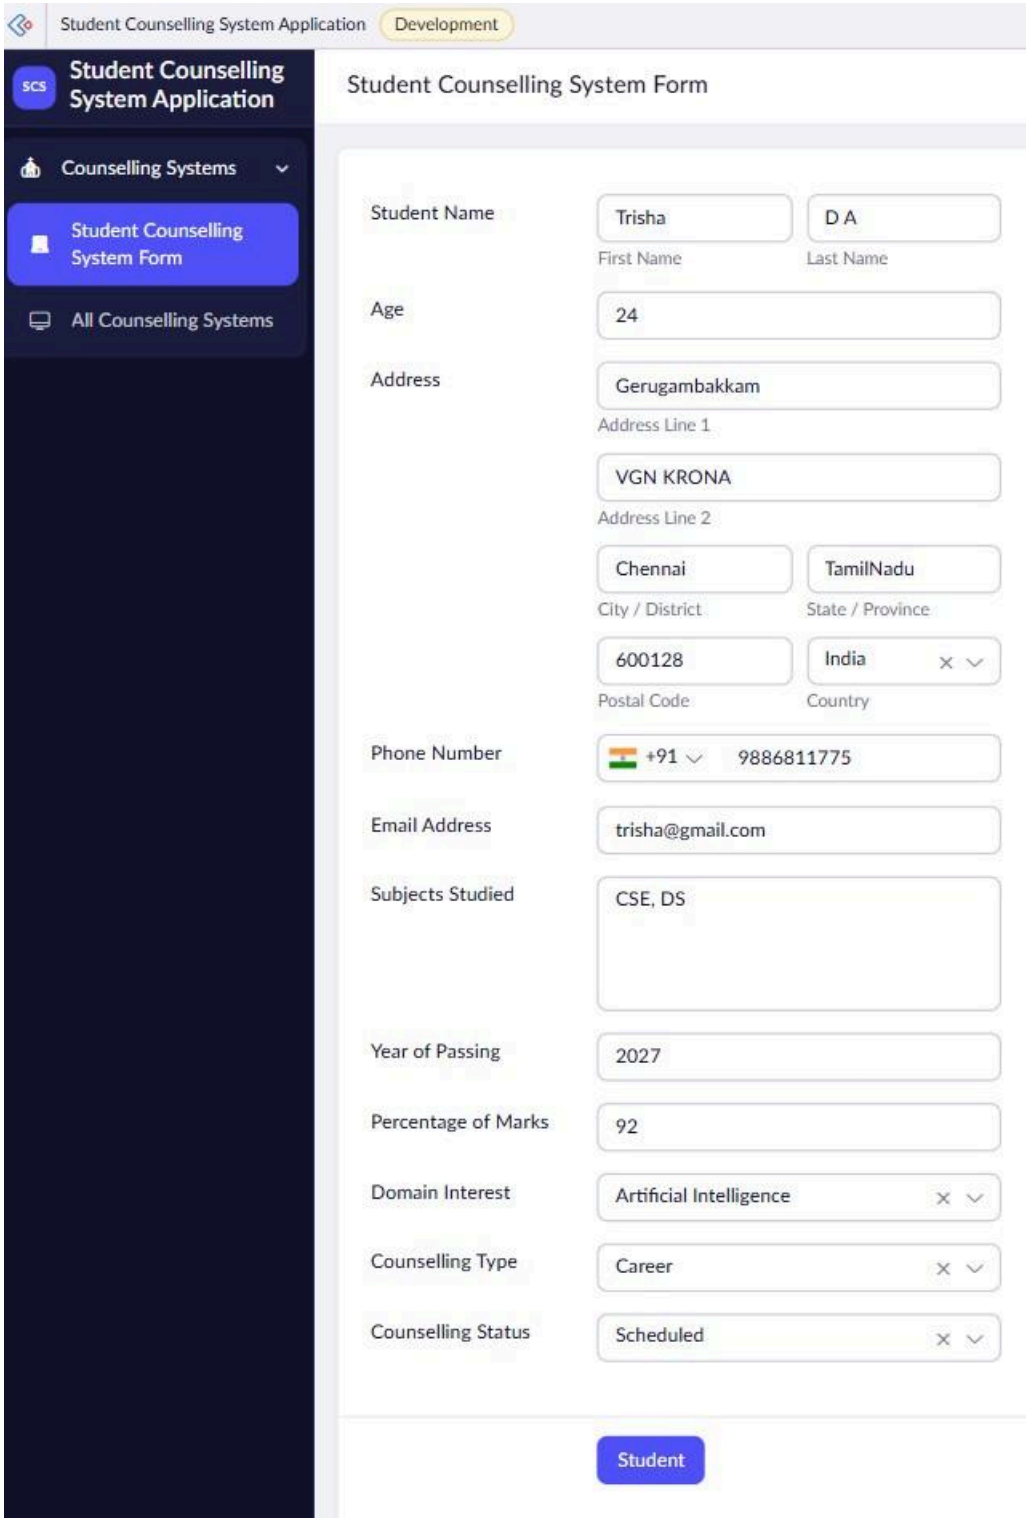

To create a Student Counselling System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Procedure

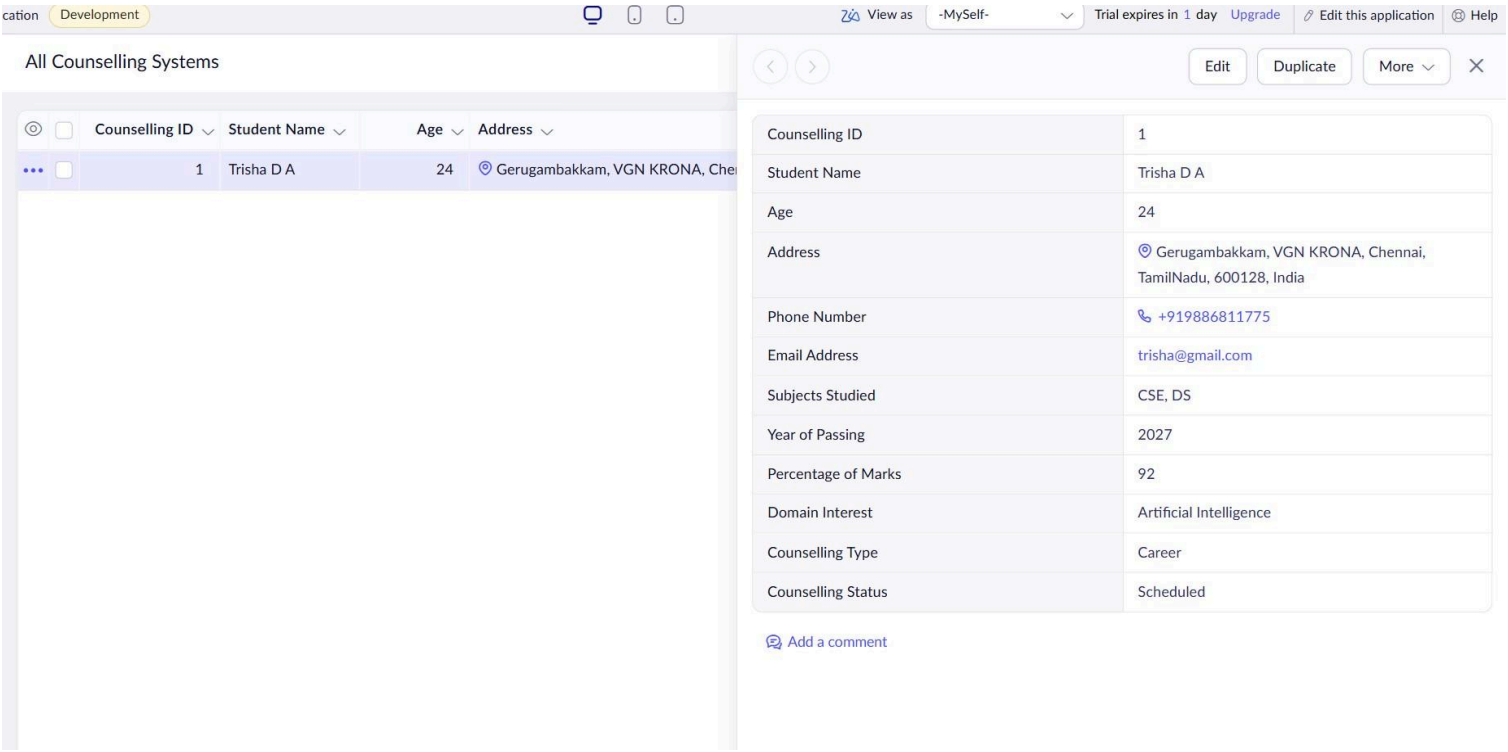

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application named Student Counselling System.
4. Create a new form named Student Counselling Form.
5. Add the required fields:
    - Counselling ID
    - Student Name
    - Age
    - Address
    - Phone Number
    - Email Address
    - Subjects Studied
    - Year of Passing
    - Percentage of Marks
    - Domain Interest
    - Counselling Type (Academic / Career / Higher Studies)
    - Counselling Status (Pending / Scheduled / Completed)
6. Configure the field types according to the data required.
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample student details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application using different student academic details and domain interests.
12. Verify that the Student Counselling System works successfully as a SaaS application.

Implementation

Input:

Output:

Result

Thus, a Student Counselling System was created using Zoho One and demonstrated as a Software as a Service (SaaS) application.
